

TEST PLAN

Login Module Testing

Project Name

Rahul Shetty Academy – Locators Practice

Document Information

Field	Details
Document Title	Test Plan
Project Name	Rahul Shetty Academy - Locators Practice
Module	Login Module
Prepared By	Dolly Harode
Role	QA Engineer
Version	1.0
Date	23 July 2026

1. Introduction

This Test Plan describes the testing strategy, objectives, scope, testing approach, resources, deliverables, risks, and schedule for validating the Login functionality of the Rahul Shetty Academy Locators Practice web application.

The objective of this testing activity is to ensure that the login feature functions correctly for valid and invalid user credentials while maintaining usability, reliability, and expected application behavior.

2. Objective

The objectives of this testing are:

- Verify successful login using valid credentials.
 - Verify unsuccessful login using invalid credentials.
 - Validate error messages for incorrect login attempts.
 - Verify mandatory field validations.
 - Verify Forgot Password functionality.
 - Verify successful navigation after login.
 - Ensure the login functionality meets expected business requirements.
-

3. Scope of Testing

In Scope

- Login Page
- Username Validation
- Password Validation
- Login Button
- Forgot Password
- Error Messages
- Successful Login
- Logout Functionality
- UI Validation of Login Page

Out of Scope

- Database Testing
- API Testing
- Performance Testing
- Security Testing
- Cross Browser Compatibility

- Mobile Testing
-

4. Test Items

The following components will be tested:

- Username Field
 - Password Field
 - Login Button
 - Forgot Password Link
 - Reset Password Form
 - Home Page after Login
 - Logout Option
-

5. Testing Type

The following testing techniques will be performed:

- Functional Testing
 - UI Testing
 - Positive Testing
 - Negative Testing
 - Smoke Testing
 - Regression Testing (Automation)
 - Sanity Testing
-

6. Test Environment

Item	Details
Application	Rahul Shetty Academy

URL	https://rahulshettyacademy.com/locatorspractice/
Browser	Google Chrome
Operating System	Windows 11
IDE	Eclipse
Programming Language	Java
Automation Tool	Selenium WebDriver
Build Tool	Maven
Version Control	Git & GitHub

7. Entry Criteria

Testing will begin when:

- Application URL is available.
 - Login module is stable.
 - Test data is available.
 - Test environment is configured.
 - Selenium project is ready.
-

8. Exit Criteria

Testing will be considered complete when:

- All planned test cases have been executed.
- Critical defects have been resolved.
- No blocker defects remain.
- Test summary report has been prepared.

9. Test Deliverables

The following documents will be delivered:

- Test Plan
 - Test Scenarios
 - Test Cases
 - Bug Report
 - Automation Scripts
 - Test Execution Report
 - Screenshots
-

10. Test Data

Username	Password	Expected Result
rahulshettyacademy	learning	Successful Login
Rahul	learning	Invalid Login
rahulshettyacademy	wrongpassword	Invalid Login
blank	learning	Validation Message
rahulshettyacademy	blank	Validation Message
blank	blank	Validation Message

11. Defect Management Process

Defects identified during testing will include:

- Bug ID
- Summary
- Steps to Reproduce
- Expected Result
- Actual Result
- Severity
- Priority
- Status
- Screenshot

Defect Status Flow:

New

Assigned

In Progress

Fixed

Retest

Closed

12. Risk Analysis

Risk	Mitigation
Application unavailable	Retry testing later
Incorrect Test Data	Prepare verified data
Browser Issue	Use updated Chrome

13. Assumptions

- Application is available throughout testing.
 - Valid login credentials are provided.
 - Internet connection remains stable.
 - Test environment is properly configured.
-

14. Responsibilities

Role	Responsibility
QA Engineer	Test Planning, Test Case Design, Bug Reporting, Automation
Developer	Fix reported defects
Application	Provide stable build

15. Tools Used

- Selenium WebDriver
 - Java
 - Eclipse IDE
 - Maven
 - Git
 - GitHub
 - Microsoft Excel
 - Microsoft Word
-

16. Conclusion

The purpose of this Test Plan is to ensure that the Login functionality of the Rahul Shetty Academy Locators Practice application is thoroughly validated through both Manual and Automation Testing. Successful execution of this test plan will help identify functional defects, improve application quality, and ensure a reliable user login experience.
